3. Warp-wise breaking strength: Will be improved for 30 specifications.
4. Weft-wise breaking strength: Will be improved for 28 specifications.

We plan to gradually implement the improvement of the above product quality indicators starting from January 2024, covering our company and its subsidiaries at all levels (including India, China, Indonesia, and Bangladesh).

As a responsible manufacturer, we will update our product manuals, product labels, and will issue the testing reports for products manufactured by us to the improved quality standards. If you have any questions, please contact our sales department at any time. We will continue to support development of our corporate, sustainable fabric and thread with high quality products and services.

Thank you very much for your continued support and cooperation!
